

## REMARKS/ARGUMENTS

In this amendment, previous claims 1, claim 2, and claim 3 are cancelled because they did not meet with the basic claim structure requirements, previous claim 4 and claim 5 are cancelled because they are not the prevention of fogging windshield; therefore, new claim 6, claim 7, claim 8, claim 9 and claim 10 are added to replace all previous claims.

The updated drawings attached.

Respectfully submitted,

## Brevet canadien / Canadian Patent

Le commissaire aux brevets a reçu une demande de délivrance de brevet visant une invention. Ladite requête satisfait aux exigences de la *Loi sur les brevets*. Le titre et la description de l'invention figurent dans le mémoire descriptif, dont une copie fait partie intégrante du présent document.

Le présent brevet confère à son titulaire et à ses représentants légaux, pour une période expirant vingt ans à compter de la date du dépôt de la demande au Canada, le droit, la faculté et le privilège exclusif de fabriquer, construire, exploiter et vendre à d'autres, pour qu'ils l'exploitent, l'objet de l'invention, sauf jugement en l'espèce rendu par un tribunal compétent, et sous réserve du paiement des taxes périodiques.

The Commissioner of Patents has received a petition for the grant of a patent for an invention. The requirements of the *Patent Act* have been complied with. The title and a description of the invention are contained in the specification, a copy of which forms an integral part of this document.

The present patent grants to its owner and to the legal representatives of its owner, for a term which expires twenty years from the filing date of the application in Canada, the exclusive right, privilege and liberty of making, constructing and using the invention and selling it to others to be used, subject to adjudication before any court of competent jurisdiction, and subject to the payment of maintenance fees.

(54) Titre : APPAREIL DE RECHAUFFEMENT DE L'AIR DU PARE-BRISE  
(54) Title: THE WINDSHIELD HEATING AIR APPLIANCE

(57) Abrégé/Abstract:

The windshield heating air appliance is designed to keep heated air in an isolated area referred to as the controlled windshield heating air space, which is formed by attaching the windshield heating air appliance edges to the windshield. The controlled windshield heating air space is less than 1 % of the automobile passenger compartment; thus air in the controlled windshield heating air space can be quickly heated, and the windshield surface can be maintained at an optimal temperature to prevent fogging of the windshield and reduce the time to melt ice accumulated on the windshield.
